DETAILED ACTION

Claim Objections

1. Claims 3-7 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must depend in the alternative. See MPEP § 608.01(n). Accordingly, the claims 3-7 have not been further treated on the merits.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Swanson et al. in view of Okiebisu. Note in Swanson et al. the ear flaps having secured speakers 26, the audio source 16, the connection wires 38, 40 in chinstraps 34, 36 connected at chinstrap connection 42, 42. Swanson et al. do not teach the audio source being external from the helmet. Okiebisu teaches old and well known the audio source 1 being external from the speaker support. It would have been obvious to one of ordinary skill in the art at the time of the invention to substitute the radio of Okiebisu for that of Swanson et al. to enable convenient separation of the helmet and audio source as desired. With respect to claim 2 note the mechanical connection as at 42, 42 of Swanson et al.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note particularly, the electrical connection of Marmaropoulos, the chinstrap of

Lochner and the external audio sources of Von Ilberg, Pollak, Shen et al., Chan et al., Yang, Jones, Young, Makins, French and McManigal.
